ETF50 Electric Scissor Table Lifter

CE

- Power Lifting, manual push moving
- Safe, reliable, sustainable and low maintenance

Electric Scissor Lift Table

- The high-quality scissor lift table is driven by an electric motor mounted under the table, which is controlled by a pendant hand controller on a curly cable.
- The table utilizes a safety bar around the perimeter to sense any foreign objects in which case it will stop the movement instantly.
- These tables are normally operated from the factory floor but can be installed in a pit (require eye bolt lifting lugs).

Warranty: 1 Year refer to the JIALIFT warranty terms and conditions
